

Congratulations on your Méz!

Instructions for Tables:

For use as a Table: Put the table top gently surface where it won't get scratched and screw-in the table legs. You don't need any tools.

For use as Wall Art: Remove the legs and nestle them behind the table top using the attached Velcro straps. Use the provided heavy duty hangers, to secure your Méz on a wall.

Instructions for Trays:

Your Méz tray comes with a wall hanger at the back, and uses one nail/screw to hang.

For both tables and trays, Please make sure that the screw used is anchored securely in the wall, or is in a stud.

Surface Care

- You can clean the top with a soft cloth and water, Windex or Pledge.
- The surface should not be subjected to high temperatures. Always use coasters for hot objects, including tea/coffee cups.
- The surface is water and alcohol proof and can bear the weight of up to a case of wine! (Yes, we have tried!).
- Extremely heavy objects, when left on the surface for a period of time, may leave impressions on the surface. Impressions usually disappear in a few hours at 72°F- 75°F room temperatures.
- Please protect your Méz from scratches like any other piece of furniture, as they are not reversible.
